Trivandrum, Kerala, India

EXPERIENCE

Jr. Python Full Stack Intern

Inmakes Infotech Pvt. Ltd 05/2024 - Present TVM

As a Junior Python Full Stack Intern, I assist in developing web applications using Python for back-end and HTML, CSS, JavaScript for front-end. I support coding, debugging, and testing while collaborating with the development team and maintaining documentation.

Cyber Security Intern

Cibera Defence Private Ltd 09/2023 - 12/2023 TVM

As a Cybersecurity Intern, I assist in protecting digital assets by monitoring threats, supporting incident response, and conducting vulnerability assessments. I help implement security policies, maintain documentation, and stay updated on emerging threats.

Surveillance Systems Specialist

Newopsis Infotech Pvt Ltd 09/2018 - 08/2023 TVM

Experienced in designing, installing, and maintaining advanced CCTV and security systems. I specialize in CCTV networking, system integration, and troubleshooting to ensure reliable security solutions for businesses and organizations.

Logistics Coordinator

Barkath Al Riyadh Trading, Shipping & Freight Forwarding

10/2016 - 12/2017 Riyadh, Saudi Arabia

Office Administrator

Business Development Officer

Reliance Communications 07/2011 - 01/2012 TVM

Office Administrator

BSOFT Networks 07/2010 - 06/2011 TVM

EDUCATION

B.Tech

Kerala University 01/2006 - 01/2010 TVM

PROJECTS

VSK BookStore

08/2024 - 09/2024 TVM

<https://vishnuskumar035.pythonanywhere.com/>

Developed a web-based online bookstore using Python, Django, and SQLite database. The platform allows users to browse, search, and purchase books, with features such as user authentication, shopping cart, and order management. Integrated secure payment processing and an admin panel for inventory management. Focused on creating a user-friendly interface and ensuring smooth back-end operations.

SUMMARY

Enthusiastic and self-motivated Python Developer with a strong foundation in Python programming, eager to launch a career in software development. Proficient in Python frameworks like Django, with hands-on experience in developing web applications, scripting, and working with databases. Strong problem-solving abilities, a quick learner, and passionate about writing clean, efficient code. Looking to apply technical skills and learn from experienced professionals in a dynamic development environment. Eager to contribute to innovative projects and grow as a Python Developer.
